

## **Bibijan runs a successful business and has become a job creator.**

Fate played on Bibijan's life when her husband succumbed to cancer. She did not have the educational background to get a job. Though she had learnt to stitch blouses she did not pursue it as her husband was working. Once her husband died, none of the family members provided her any help to support her children.

She joined RAPID and underwent I Create training to learn the ways of running a business profitably. I Create MAGIC funding assisted her with Rs.20,000 to buy a sewing machine and an over lock machine to set up her tailoring business. She works hard and had made a name for herself in her area. She is very good in designing blouses and stitching shirts. She has got her elder daughter married off and is now educating her other children so that they don't suffer like her in life.

She also teaches tailoring to her neighbors and charges them minimal amount. She is socially conscious of helping others as she does not want anybody to suffer her fate.

Life has taught her to be confident and active to be successful. She has great contacts and sometimes gets work from other tailors from the nearby city.

Bibijan continues to improve her business and her lifestyle to help her children to do better in their lives. Today she has created jobs for two assistants and reaches over 130 customers every month.
