

After I Create training

Renuka Ghatage runs a successful Paying Guest with Meals business

And Magic Fund Helps!

Renuka Ghatage was shocked to discover that her husband was already married and had a family before he married her. She left him and now lives separately with her children for the past 10 years. She was working as an attender in Karnataka College, Dharwad, where she found that there were lots of students who don't get good food or a decent place to stay.

She started supplying lunch to a few students who liked it so much, that they recommended her to their other friends who were in need of good quality food. She also found that these students and their parents were in constant search of a decent accommodation

which takes care of their basic needs. She attended the I Create workshop in March, 2015. She received Rs 50,000/- for her business under the MAGIC fund in August, 2015.

Renuka saw a business opportunity and started a Paying Guest accommodation in her own place of stay.

Since Dharwad has many colleges and students come from other parts of the State to study there, her business had many takers.

She runs a Paying Guest Accommodation for students in Srinagar, Dharwad. She provides Accommodation and takes care of their meals i.e., breakfast, lunch, snacks and dinner. Along with these, she also provides laundry services (out sourced) and hot water for bath. Her reputation of serving hygienic and tasty food precedes her and she is making good headway in the business.
